# Monthly Personal Volume (PV)

A U T O S H I P / P E R S O N A L O R D E R

ALL MPGXTREME ISRS ARE REQUIRED TO MAINTAIN  
MONTHLY PERSONAL VOLUME OF 50 PV TO REMAIN QUALIFIED & ACTIVE

Setting up and maintaining a monthly autoship or placing a monthly order of at least 50 PV is absolutely crucial for ISRs. This ensures that they stay active and qualified to receive commissions.

By maintaining a monthly personal order or autoship, ISRs not only ensure that they have products available every month but also safeguard their commission eligibility. Additionally, this practice prevents their hard-earned volume from being flushed or removed. Keeping up with monthly PV is key to the ongoing growth and stability of an ISR's business.

When you log into your back office, you'll find the "Manage Autoship" option on the left sidebar. This is where you can create or modify your monthly autoship. Feel free to make changes to your order whenever you need to. Just remember to keep a minimum of 50 CV to stay active and qualified.

By setting your monthly autoship to run between the 1st and the 15th of each month consecutively, you'll have better management of your orders. It's recommended not to schedule it for the end of the month for smoother operations.

NOTE: 2 Bags Slimcore = 50 CV

## BEEN THERE ...

"Believe me, you don't want to find yourself in a situation where something unexpected occurs and autoship can't be completed because life just happened, and it's the end of the month! When you miss autoship, all that accumulated, stored volume flushes. (A complete nightmare!) That's why I always schedule mine before the 15th to give myself plenty of month left to handle any issue that arises in time.

Plan for the worst.

Expect the best!"

## BINARY TEAM STRUCTURE

The MPGXTREME Compensation Plan is an exciting opportunity that operates on a Binary structure. This means you will have two teams or legs, one on the right and one on the left. As your teams grow and generate 100 CV (Commissionable Volume) each simultaneously, a cycle is completed, and you earn \$20. The best part? There are no limits to how many cycles you can achieve! Each cycle contributes to the growth of a flourishing organization. In this plan, one leg may have less volume than the other, known as the Weak Leg. On the other hand, the Strong Leg represents the leg with more volume. It's important to build both sides - right and left - in order to maintain a balanced and prosperous business.

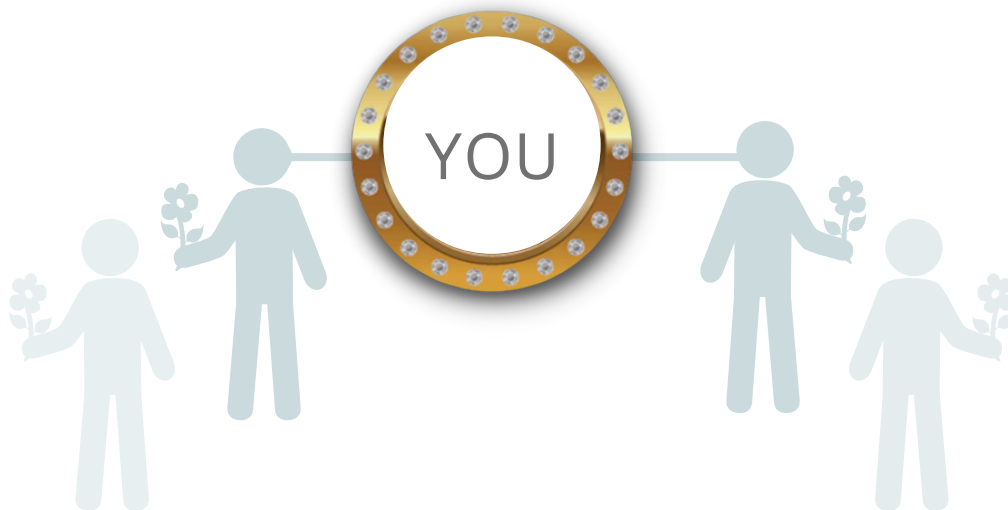

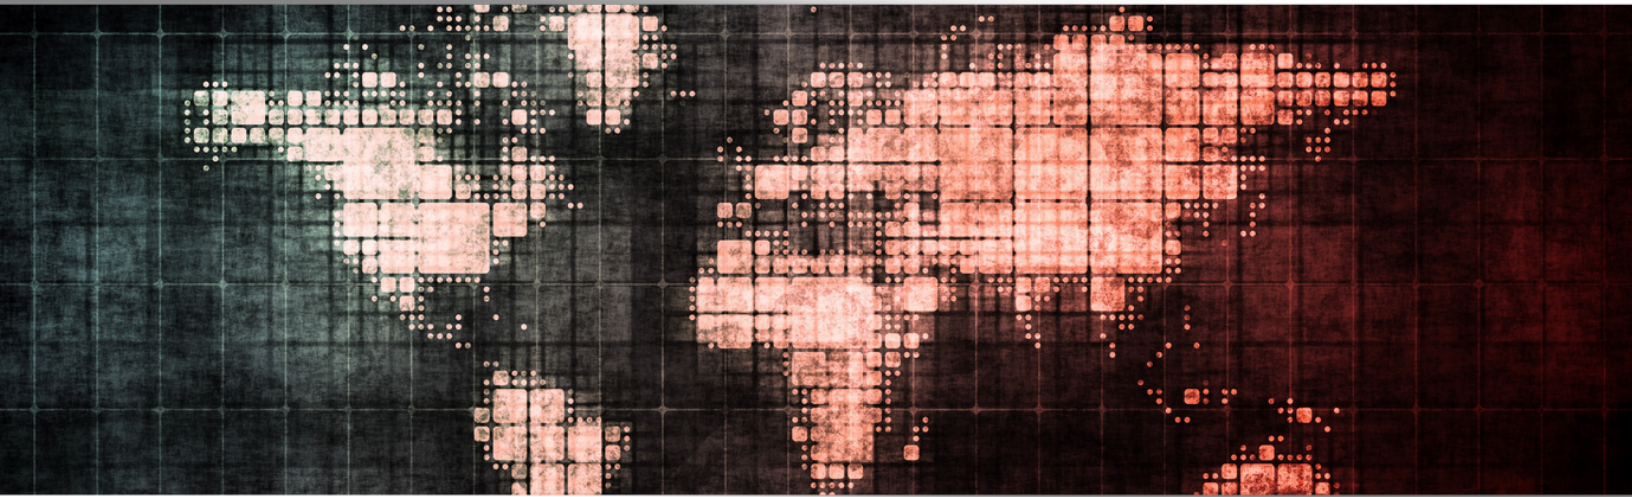

Because 100 CV on each leg constitutes as a cycle that earns commission, ISRs are paid on the volume of the Weak Leg. Remaining volume carries over or "spills over" until it finds enough CV to complete another 100 CV cycle.
